

# New Construction

## Our Lady of Angels Mausoleum Assumption Cemetery, Wheaton

Preparations are currently in progress for an exquisite 3,000-square-foot climate-controlled mausoleum complex, designed to house 765 niches for urns containing cremains, both exterior and interior, alongside 370 crypt entombments.

This thoughtfully designed mausoleum will boast an intuitive layout, providing comfort and convenience for families, particularly those with ties to the original mausoleum, which is now 95 percent reserved.

The building will showcase architectural sophistication and stunning liturgical artwork, harmoniously blending with the natural landscape, enhanced by grand trees, a serene water pond, and

vibrant seasonal flora.

The Our Lady of Angels Mausoleum will offer a sacred space for contemplation, featuring a committal chapel adorned with a colorful liturgical stained-glass window at its heart. Granite-clad crypts and cremation niches will serve as hallowed resting places, allowing families to honor and pray for

their loved ones' memories for generations.

Moreover, this development will significantly elevate Assumption Cemetery's mission to provide a dignified and beautiful environment for remembrance and reflection, introducing a Glass Niche Suite that will include glass-front cremation niches embellished with

exquisite bronze statuary.

Construction is anticipated to conclude by the summer of 2026

Exclusive pre-construction savings are currently available. We warmly invite you to visit Assumption Cemetery and immerse yourself in the profound beauty and tranquility of our grounds.
